

OGCbuying.solutions Contract CBS0002

The Contract

The OGCbuying.solutions contract with TEAM (Energy Auditing Agency Limited) provides conservation tools across all utilities (electricity, gas, oil, water).

The contract makes available to the public sector a comprehensive range of energy management services, essential to controlling costs. These include:

- **Display Energy Certificate (DEC)** and Advisory Report Service
- Energy bill validation to eradicate errors in billing – approx **3% saving**
- Electronic bill processing – around **£30 per bill saving**
- Monitoring and targeting to identify where consumption can be reduced - **5 to 20% saving**
- Energy and Carbon Saving Compliance reporting
- Energy Consultancy including Energy Surveys – **5 to 25% saving**
- Flexible Energy Manager to provide part-time energy management as required

Typically, sites are able to reduce their energy usage by between 5-25% with little or no capital expenditure, simply by scrutinising their bills, understanding in detail how they use their energy and identifying areas where savings can be made by adopting some common sense measures. This is especially important against a market of rising costs and Government targets to reduce energy consumption and carbon emissions.

What this means for you

The Framework Agreement enables central and local government departments, and other organisations that purchase through OGCbuying.solutions, to benefit immediately from TEAM's services, without the need to go through a tendering process. Any government department, health authority, local authority, nationalised industry, public body or charity can work with TEAM via the Framework Agreement. Private sector contractors who are providing a facility or service for a public sector end user are also included.

The Framework Agreement with TEAM can also help organisations to meet Government energy conservation and sustainability targets.

About TEAM (EAA Ltd)

TEAM are the largest provider of energy management software and bureau services in the UK, working with over 350 organisations. With customers in the public and private sectors they provide an extensive and flexible range of services to help reduce energy costs, energy usage and carbon emissions.

TEAM are an independent company with over 20 years experience in the energy sector providing cost effective solutions for energy management.

About OGCbuying.solutions

OGCbuying.solutions is an Executive Agency of the Office of Government Commerce in the Treasury. It provides public sector procurement professionals with a route to the products and services they need to maximise procurement efficiency and value for money.

In addition to the substantial savings brought about through significant buying power, economies of scale and strategic partnerships, it also saves time and money by managing the procurement process itself.

The need to conserve energy and protect the environment underscores all of OGCbuying.solutions' policies and practices.
